

Laptop Battery Replacement for Lenovo

This laptop battery serves as a replacement or spare for Lenovo laptops. The Lithium-Ion (Li-ion) battery pack ensures reliable power and extended battery life.

Product Overview

High-Performance Replacement Battery

This high-performance laptop battery is engineered as a reliable replacement or spare power source. Utilizing advanced Lithium-Ion (Li-ion) technology, it delivers consistent power and extended operational life. The unit is equipped with built-in protection circuits to safeguard against overcharging, overheating, and short circuits, ensuring safe and efficient performance for your device.

Technical Specifications

Safety Features

- Overcharge protection
- Overheat protection
- Short circuit protection

Battery Chemistry

Lithium-Ion (Li-ion)
