

Laptop Battery Replacement for Toshiba PA3533U

This high-capacity lithium-ion laptop battery is a replacement for Toshiba PA3533U models. It provides reliable power and extended battery life for compatible Toshiba laptops and features built-in overcharge and short-circuit protection for safe operation.

Product Overview

Reliable Power Solution

This high-capacity lithium-ion replacement battery is engineered to provide dependable power and extended runtime for compatible laptop models. Designed with safety in mind, it includes integrated protection against overcharging and short circuits to ensure stable operation. It serves as an ideal, high-performance alternative for users requiring a durable and consistent power source.

Technical Specifications

Capacity

4400 mAh
Capacity

48 Wh
Energy

Voltage

10.8 V

Chemistry

Lithium-ion (Li-ion)

Safety & Compliance

Handling & Safety

- Do not dispose of in fire or water
- Do not short-circuit
- Do not store in temperatures above 60°C
- Avoid exposure to direct sunlight
- Use only specified chargers

Safety Protections

Overcharge Protection, Short-circuit Protection

Commercial Advantages

Key Advantages

Green Product • Quality Approved • Prompt Delivery • Reliable Performance
