

Laptop DDR2 SDRAM Memory Module

This is a 1GB 2Rx16 PC2-6400S-555-12 DDR2 SDRAM memory module. It is designed for laptop computers and operates at a clock speed of 800MHz.

Product Overview

High-Performance DDR2 Laptop Memory

This 1GB DDR2 SDRAM memory module is engineered specifically for laptop upgrades and replacements. Featuring a 200-pin SODIMM form factor and operating at 800MHz, it provides reliable performance for compatible systems. Designed to meet the PC2-6400 standard, this module is an efficient solution for enhancing system responsiveness in legacy notebook computers.

Technical Specifications

Capacity	1 GB
Memory Type	DDR2 SDRAM
Form Factor	200-pin SODIMM
Clock Speed	800 MHz
Standard	PC2-6400
Rank Configuration	2Rx16
Part Identifiers	PC2-6400S-555-12, M2QA006G714435C5Z, AD2800001CS
