Overview

High-Performance Top Loading Solution

This large capacity top loading washing machine is designed to handle bulky loads and diverse fabric types with ease. It features an advanced four-in-one detergent box for sequential dispensing and a user-friendly digital display for real-time cycle tracking. With specialized cycles like Baby Care and Eco-Rinse, it provides a versatile and efficient cleaning solution for professional and high-volume environments.

Key Features

Four-in-One Detergent Box

The integrated management system allows users to add liquid detergent, washing powder, softener, and bleach simultaneously. The machine automatically dispenses each agent in the correct sequence during the wash cycle for optimal cleaning results.

Wash Programs

Available Wash Cycles

Quick Wash, Tub Clean, Fuzzy Logic, Delicate, Baby Care, Soak, Heavy-Duty
