

Laser Engraving Machine

This laser engraving machine is designed for precision cutting and engraving on a variety of materials. It features a compact footprint, making it suitable for small workshops and educational settings.

Overview

Precision Laser Engraving

The CMA-4030 is a high-precision laser engraving and cutting machine engineered for versatility and reliability. Its compact design makes it an ideal solution for small workshops, educational environments, and professional studios requiring detailed material processing. Equipped with advanced motion control and adjustable laser parameters, this machine ensures consistent, high-quality results for a wide range of design applications.

Technical Specifications

Control Features

- Adjustable laser power
- Adjustable engraving speed
- Motion control system for precise positioning

Model Number	CMA-4030
Software Compatibility	CAD Software, CAM Software

Safety & Design

Safety Features

Enclosed Housing • Safety Interlocks

Form Factor	Compact footprint
