

# Laser Level with Bubble Levels

This laser level is designed for accurate horizontal and vertical leveling tasks. It features integrated bubble levels and a rotating base for precise positioning.

## ADDITIONAL IMAGES

## Product Overview

### Precision Leveling Solution

This laser level offers a versatile solution for horizontal and vertical alignment tasks in construction and renovation projects. Designed with both laser projection and integrated bubble levels, it ensures high precision for various installation needs. The durable, soft TPE housing provides a comfortable grip and long-lasting performance in demanding work environments.

## Laser Specifications

### Laser Wavelength

**635 nm**  
Line

**650 nm**  
Point

### Accuracy

**1 mm/m**  
Line Accuracy

**0.5 mm/m**  
Point Accuracy

### Working Range

**3 m**  
Line Range

**20 m**  
Point Range

## Technical Details

Laser Class Class 2 • <1mW	
Power Source	3V, 2x AAA Battery
Battery Life	15 hours
Operating Temperature	0-40°C
Housing	Soft TPE

## Packaging & Contents

Packaging	Double blister + color box
-----------	----------------------------
