Product Overview

Professional Laser Welded Diamond Blade

This professional-grade diamond saw blade features advanced laser-welding technology to provide superior durability and high-performance cutting. With a 350mm diameter, it is engineered to deliver precise, efficient results across a wide range of building materials including granite, marble, and concrete. Its robust construction ensures long-term reliability for demanding industrial and construction applications.

Technical Specifications

Diameter	350 mm
Segment Height	10 mm
Segment Thickness	2.8 mm
Body Thickness	2 mm

Performance Metrics

Operating Limits

80 m/s

Max Peripheral Speed

4000 RPM

Maximum RPM

Compatibility & Materials

Application Materials	Granite, Marble, Concrete, Brick, Tile
-----------------------	--

Product Features

Packaging Options

- Color box
- White box
- Double blister
- PVC bag
- Blister card

Manufacturing Technology

Laser Welded
