

Laser Welded Dry Drill Bits

These laser welded dry drill bits are designed for drilling soft granite, porcelain, and natural stones. They come in two sizes, BGGD1250 and BGGD1375, with different connection threads available upon request.

Product Overview

Professional Laser Welded Dry Drill Bits

These high-performance laser welded dry drill bits are engineered for precision drilling in soft granite, porcelain, artificial stone, and natural stone. Designed for durability and efficiency, they feature robust segment dimensions and a standard connection thread for reliable performance on job sites. Customizable connection options are available to meet specific project requirements.
