

Lashing Snatch Block with Swivel Eye

This heavy-duty snatch block is designed for lashing and lifting applications. It features a robust construction with a swivel eye for easy attachment and positioning.

Product Overview

Heavy-Duty Lashing Snatch Block

This lashing snatch block with a swivel eye is engineered for demanding rigging and lifting applications. Designed for reliability in harsh environments, it features a robust construction that allows for easy attachment and precise positioning. The unit is built to withstand significant loads, ensuring safety and efficiency in various maritime and industrial lashing scenarios.

Performance Metrics

Safe Working Load (SWL)

5 TON

Safe Working Load
