

LCD Monitor Desk Mount Stand

This monitor stand mounts to desks to clear up space for keyboards and other items. It is suitable for standing desk applications, depending on the user and desk height.

Product Overview

Ergonomic Monitor Support

This gas spring desk mount stand is designed to elevate your workspace efficiency by securely supporting a single LCD flat screen monitor. Featuring a smooth counterbalance system, it allows for effortless height and angle adjustments to ensure optimal viewing comfort. By lifting your screen off the desk, it clears valuable workspace and promotes better posture, helping to reduce neck and shoulder strain during long working hours.
