Overview

Professional Price Computing Scale

This versatile price computing scale is engineered for retail environments, including shops and supermarkets. It features a rugged construction with a stainless steel weighing platter and a clear, backlit LCD display for easy reading in various lighting conditions. With support for 265 programmable PLUs and external connectivity, it offers a reliable and efficient solution for point-of-sale weighing and pricing tasks.

Construction & Hardware

Housing Material	Rugged ABS
Platter Material	Stainless Steel
Load Cell	Single point Aluminum
Setup Features	Leveling bubble, Adjustable feet

Capacity & Performance

Capacity Models

Model	Capacity (Metric)	Capacity (Imperial)
EHC-PH LCD-3	0-1.5kgx0.5g / 1.5-3kgx1g	0-3lbx0.001lb / 3-6lbx0.002lb
EHC-PH LCD-6	0-3kgx1g / 3-6kgx2g	0-6lbx0.002lb / 6-15lbx0.005lb
EHC-PH LCD-15	0-6kgx2g / 6-15kgx5g	0-15lbx0.005lb / 15-30lbx0.01lb
EHC-PH LCD-30	0-15kgx5g / 15-30kgx10g	0-30lbx0.01lb / 30-60lbx0.02lb

Units of Measure	kg, lb, oz
Operating Temperature	-10 to 40 (14 to 104)

Display & Interface

Display	6-digit, 0.56" (14.2mm) LCD with white backlight
Keypad	25 keys
PLU Memory	265

Connectivity & Power

Approvals	NTEP • NSF • CE • WEEE • UL
Power Supply	12V DC 500mA adapter, built-in rechargeable battery
Communication Ports	RS232, USB
