

LCD Screen Connector for Peugeot 406 Sagem Instrument Cluster

This flat LCD connector is designed for Peugeot 406 vehicles equipped with Sagem instrument clusters. It facilitates the connection between the LCD screen and the main board, ensuring clear and reliable display functionality.

Product Overview

Professional LCD Connector Solution

This flat LCD connector is specifically engineered for Peugeot 406 vehicles equipped with Sagem instrument clusters. It serves as a vital bridge between the LCD screen and the main board, ensuring reliable display functionality and signal transmission. Designed for durability, this component is an essential part for professional repairs and replacements of faulty instrument cluster displays.
