

LCD Screen Flexible Flat Cable Connector

This flat LCD connector is designed for use in vehicle LCD screens. It utilizes a flexible flat cable (FFC) with parallel conductors and green reinforcement tape for durability.

Product Overview

Flexible Flat Cable Connector

This flexible flat cable (FFC) connector is designed specifically for automotive information display systems. It features multiple parallel conductors that ensure a reliable, high-density connection between the LCD screen and the main circuit board. Built with green reinforcement tape on both ends, this component is engineered for durability and ease of installation, making it an essential part for maintaining clear and functional vehicle displays.

Compatibility

Compatible Vehicle Displays

Citroen C5, Citroen Xsara, Peugeot 307

Ordering Information

Minimum Order Quantity

10 pieces

Technical Details

Key Features

- High-density conductor pitch
- Green reinforcement tape for durability
- Designed for Sagem info displays

Connector Type

Flexible Flat Cable (FFC)
