

LCD Television with Hyper Real Engine

This LCD television features a Hyper Real Engine image processing technology. It restores true colors and maximizes ultra-high dynamic contrast, rendering even small details realistically.

Product Overview

Hyper Real Engine Technology

This LCD television features advanced image processing technology designed to deliver superior visual quality for professional settings. By utilizing the Hyper Real Engine, the display restores authentic colors while achieving ultra-high dynamic contrast. The technology ensures that even the smallest details are rendered with clarity, resulting in vivid, realistic imagery suitable for demanding environments.
