

Lead-Acid Battery 120T

The 6-QA-120T is a lead-acid battery designed for various applications. It features a robust construction with a yellow top and blue caps covering the cells.

Overview

Reliable Lead-Acid Power Solution

The 120T lead-acid battery is engineered to deliver consistent and dependable power for a wide range of industrial and commercial applications. Built with a robust construction, this unit is designed to withstand demanding environments while maintaining stable performance. Its design focuses on longevity and ease of maintenance, making it a practical choice for professional operations requiring reliable energy storage.
