

Leaf and Debris Blower

This blower is lightweight and ergonomic, designed for efficiently clearing leaves and debris. It features a powerful motor, comfortable grip handle, and durable construction for long-lasting performance.

Overview

High-Performance Debris Management

This lightweight and ergonomic blower is designed for quick and efficient clearing of leaves, debris, and grass clippings. Featuring a powerful 18V brush motor, it delivers impressive blowing force suitable for gardens, patios, and driveways. Its durable construction and over-molded handle ensure comfort and long-lasting performance during extended use.
