

Leakage Circuit Breaker

This circuit breaker is suitable for AC 50 Hz ~ 60 Hz, with a rated voltage of 400 V and below, and a rated current of up to 63 A. It is designed to protect personal and electrical equipment safety.

Product Overview

Safety and Protection

This leakage circuit breaker is designed to protect electrical circuits and personnel from hazards such as leakage currents and short circuits. It is suitable for AC 50-60 Hz lines, offering reliable performance at voltages up to 400V. The compact design ensures easy installation in various residential, commercial, and industrial electrical systems.

Technical Specifications

| | |
|--|-------------------|
| Rated Voltage | 400V AC and below |
| Rated Current | 63 A |
| Frequency | 50/60Hz |
| Leakage Sensitivity (I _{Δn}) | 0.03 A |

Compliance

| | |
|-------------------------|---|
| International Standards | IEC60898, IEC61009, GB10963, EN60898-1, EN61009-1 |
|-------------------------|---|

Key Features

Protection Functions

- Earth leakage current protection
- Overload protection
- Short-circuit protection
