

# Leakage Tester for Flexible Packaging

This leakage tester is designed for conducting leakage tests on flexible packaging, plastic bottles, and bags. It is suitable for use in the food, pharmaceutical, and commodity industries to evaluate sealing performance.

## ADDITIONAL IMAGES

## Overview

### Precision Seal Integrity Testing

This leakage tester is a professional-grade instrument designed for evaluating the seal integrity of flexible packaging, plastic bottles, bags, and pots. It is essential for quality control in the food, pharmaceutical, and commodity industries, allowing for effective evaluation of sealing performance. The device utilizes advanced vacuum testing methods to ensure packaging meets rigorous industry standards.

## Standards & Compliance

### Compliance Standards

GB/T 15171-1994, ASTM D 3078-94

## Performance Metrics

### Vacuum Performance

**-90 kPa**

Max Vacuum Degree

**1 %**

Vacuum Precision

**60 min**

Max Holding Time

## Technical Specifications

### Intake Pressure

0.6 MPa

### Power Supply

AC 220V / 50HZ

## Physical Dimensions

### Physical Dimensions

Component	Specification
Vacuum Chamber	300x350mm
Device Dimensions	430(L) x 300(W) x 500(H) mm
Weight	12 kg
