Overview

Professional Welding Protection

These 16-inch welding gloves are engineered for superior protection against thermal risks and flames in industrial environments. Constructed from premium cowhide split leather, they feature a reinforced palm for enhanced durability and grip. Designed with a comfortable cotton lining, they provide the necessary safety and dexterity required for professional welding operations.

Physical Characteristics

Material	Cowhide split leather
Length	40 cm
Color	Red

Design & Construction

Design Features	5-finger design, American cut, Reinforced palm, Cotton lining
Packaging	12 Pairs/Bag

Safety & Compliance

Safety Warnings

- Not for electric shock protection
- Avoid use near moving machinery if traction resistance is high
- Cease use if allergic reaction occurs
- Electrical resistance is reduced when wet or dirty

Maintenance

Storage Instructions	Store in a cool, dry place away from frost and light in original packaging.
