

Leather Work Gloves with Reinforced Palm

These leather work gloves are designed for optimal hand protection and comfort during various tasks. Constructed from high-quality leather, they offer excellent abrasion resistance and flexibility with a reinforced palm and elastic cuff.

Product Overview

Professional Grade Protection

These durable leather work gloves are engineered for optimal hand protection and comfort during demanding tasks. Constructed from high-quality leather, they provide excellent abrasion resistance while maintaining necessary flexibility. The reinforced palm and fingertip design significantly enhances durability in high-wear areas, making them a reliable choice for professional environments.
