

LED Advertising Light Box

This light box features LED illumination for advertising displays. It is available as a two-sided aluminum snap frame with a stand or as a magic mirror with a sensor.

Overview

Versatile LED Advertising Solutions

This collection of LED advertising light boxes offers two distinct, high-impact solutions for commercial displays. The stand-mounted series provides a flexible, floor-standing option with wireless rechargeable capabilities, perfect for dynamic retail environments. Alternatively, the magic mirror series combines aesthetic elegance with functional advertising, serving as a mirror when powered off and an illuminated display when active, ideal for restrooms, restaurants, and bedrooms.
