

# LED Bicycle Headlight

This high-intensity LED bicycle headlight enhances visibility for safer riding in dark conditions. It features multiple light modes and easy mounting.

## Product Overview

### High-Performance Illumination

This LED bicycle headlight is engineered for professional-grade visibility, featuring four powerful XPG bulbs that deliver a real 1600 lumens of light output. Constructed from durable aluminum alloy with an IP65 weather-resistant rating, it is built to withstand demanding outdoor conditions. With a versatile 360-degree rotating bracket and multiple lighting modes, this unit provides reliable, customizable illumination for safety during nighttime riding.

## Technical Specifications
