

LED Car Headlight Bulb

This LED car headlight bulb has an integrated driver. Its compact design allows for easy installation and efficient heat dissipation, while providing a bright, focused beam pattern.

Product Overview

High-Performance LED Lighting

This LED car headlight bulb is engineered for superior brightness and a focused beam pattern, ensuring optimal visibility on the road. It features an integrated driver and a compact design, making installation quick and straightforward for various vehicle models. Built with efficient heat dissipation technology, this bulb is designed to maintain performance and reliability during extended use.

Application

Usage	Car Headlight, Work Light
-------	---------------------------

Dimensions

Dimensional Specs

Component	Measurement
Overall Height	2.95 inch
Bulb Height	1.73 inch
Top Diameter	0.55 inch
Flange Diameter	1.81 inch
Base Diameter	1.53 inch

Technical Features

Key Features

- Integrated driver
- Compact design for easy installation
- Efficient heat dissipation
- Focused beam pattern
