Product Overview

Versatile LED Ceiling Fan and Light

This 12-inch ceiling fan combines efficient air circulation with integrated LED lighting, making it an ideal solution for modern indoor spaces. Designed for convenience, it features 360-degree oscillation, adjustable wind speeds, and customizable brightness settings. The compact, white design ensures it blends seamlessly into bedrooms, living rooms, or offices while providing both comfort and illumination.

Performance Metrics

Air Flow Capacity

90 CBM/min
Minimum Air Flow

100 CBM/min
Maximum Air Flow

Motor Speed

1100 rpm/min

Lighting Specifications

LED Power	<24W
Color Temperature Range	4000K - 6500K
Lumen Output	1400 - 1800 lm

Control & Features

Control Method	Remote Controller
Wind Speed Settings	3
Oscillation	360-degree

Physical Attributes

Finish

White

Fan Diameter

12 inches

Motor Dimensions

74x74x16mm
