

LED Display Panel

This is an LED display. It is designed for displaying information.

Product Overview

High-Efficiency Brushless DC Motor

This high-efficiency brushless DC motor is engineered for continuous operation, making it an ideal choice for demanding industrial applications. Its compact and robust design ensures reliable performance and longevity even under heavy workloads. Specifically optimized for air-over applications, it delivers consistent power and speed control.

Technical Specifications

Rated Voltage	310 V
Rated Current	1.2 A
Rotational Speed	1350 RPM
Operating Mode	Continuous
Application Type	Air Over
