

LED Downlight (10W-50W)

This LED downlight is available in power options ranging from 10W to 50W. It provides bright and uniform illumination and features a durable construction with heat sink for thermal management.

Overview

High-Efficiency LED Downlight

This versatile LED downlight series offers reliable illumination for a wide range of residential and commercial environments. Designed with high-quality Samsung SMD 5630 chips and an aluminum frame, it provides excellent heat dissipation and energy efficiency, saving up to 70% in power consumption. With instant-start technology and a lifespan exceeding 35,000 hours, this fixture ensures consistent, flicker-free performance for offices, retail spaces, and homes.

Technical Specifications

Input Voltage	AC 100-240V 50/60Hz
Power Factor	0.92
Lumen Output	85 lm/W
LED Chip Type	Samsung SMD 5630
Lifespan	35000 hours

Performance Metrics

Key Performance Metrics

120 PCS

LED Source Count
