

LED Driver Power Supply

This LED driver provides a consistent power supply for LED lighting applications. It features an output of 12VDC 6A and is rated IP67.

Overview

Professional LED Power Solution

This high-efficiency AC adaptor is designed for reliable LED lighting applications. Featuring a robust IP67-rated enclosure, it ensures protection against dust and water ingress, making it suitable for demanding environments. It provides a stable 12VDC output, ensuring consistent performance for your lighting systems.

Electrical Specifications

Input Voltage Range	100-240VAC
Frequency	50/60Hz
Output Voltage	12 VDC
Output Current	6 A
