

# LED Emergency Exit Sign

This LED emergency exit sign provides clear guidance during emergencies. The sign features a running man symbol and directional arrow, ensuring high visibility in low-light conditions.

## Product Overview

### Reliable Safety Illumination

This LED emergency exit sign is engineered for maximum reliability in critical situations, utilizing a high-efficiency transformer and constant current/voltage charging technology. It delivers high-brightness illumination via a super-bright LED light source, ensuring visibility during power failures. Housed in a durable aluminum frame, this sign is built for both wall and ceiling mounting, making it an essential safety component for diverse industrial and civil environments.

## Technical Specifications

Light Source	Super bright LED
Key Features	High-efficiency transformer, Constant current charging, Constant voltage charging, Long service life

## Usage & Applications

### Recommended Use

- Factories and warehouses
- Hotels and shopping malls
- Hospitals and airports
- Office buildings
- Safe evacuation channels
- Stair corners

## Design & Build

### Mounting Type

Wall Mount • Ceiling Mount

Construction Material	Durable aluminum frame
