

LED Filament Candle Lamp

This LED candle lamp provides energy-efficient lighting with a classic candle-like appearance. It features a standard screw base for easy installation in compatible fixtures.

Overview

Energy-Efficient Decorative Lighting

This LED filament candle lamp combines classic aesthetic appeal with modern energy-efficient technology. Designed to mimic the elegant shape of a traditional candle flame, it is an ideal choice for decorative lighting applications such as chandeliers and wall sconces. The advanced LED components ensure low energy consumption and minimal heat generation, providing a long-lasting, warm, and inviting ambiance for professional settings.

Technical Specifications
