Product Overview

Professional Grade LED Flood Lighting

These high-performance LED flood lights offer a versatile outdoor illumination solution with power options ranging from 50W to 200W. Engineered for durability, the units feature an IP67 weatherproof rating, ensuring reliable operation in harsh conditions down to -40°C. They provide an environment-friendly lighting solution with no UV or IR radiation, making them an ideal replacement for traditional bulbs in security and landscape applications.

Technical Specifications

Available Wattage	50W, 100W, 150W, 200W
Operating Voltage	AC 85-265V
Color Temperature	6000 K
Frequency	50/60Hz

Certifications & Durability

Ingress Protection	IP67
Certifications	EMC, LVD, ROHS
Minimum Operating Temperature	-40 °C
