

# LED Flood Light for Outdoor Applications

This LED flood light is designed for large area illumination in outdoor settings. It features a robust adjustable mounting bracket and multiple LED modules for high light output.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Outdoor Illumination

This next-generation LED floodlight is engineered for durability and efficiency in demanding outdoor environments. Featuring a compact, lightweight design with low wind resistance, it provides high brightness and a wide illumination range suitable for stadiums, docks, and airports. The unit is designed for easy installation and transport, offering flexible power supply options and intelligent dimming capabilities.

## Technical Specifications

### Ingress Protection Rating

IP66

### Installation Features

- Integrated handle for easy handling
- Equipped with hoists for simplified installation
- Easy external wiring
- Flexible power supply (built-in or external)

### Key Features

Lightweight, Small Wind Resistance, Adjustable Beam Angle, Intelligent Dimming

## Quality Assurance

### Quality Testing

- Smoke test
- Water test
- Packaging vibration test

## Applications

### Suitable Environments

Stadiums, Docks, Airports, Sports Fields, Parking Lots, Security Lighting
