Overview

High-Performance Industrial Lighting

The HB18 LED High Bay Light is a robust and energy-efficient lighting solution engineered for demanding industrial and commercial environments. Featuring a durable white housing and a circular LED configuration, it provides exceptional thermal management and uniform illumination across large spaces. This fixture is an ideal upgrade for warehouses, factories, and gymnasiums, offering significant energy savings and reduced maintenance compared to traditional lighting systems.

Key Features

Key Benefits

Energy Efficient, Thermal Management, Uniform Illumination, Low Maintenance, Glare Control

Technical Specifications

Installation Method

Hanging ring mount

Optical Design

Circular LED array with clear prismatic lens

Applications

Suitable Environments

- Warehouses
- Factories
- Gymnasiums
- High-ceiling indoor spaces
