

LED Indicator Light with Ribbed Lens

This LED indicator light features a clear, ribbed lens, enhancing its visibility. Its durable, gray housing includes a mounting flange for secure installation in various applications.

Product Overview

Reliable Visual Indication

This compact LED indicator light is engineered for clear and reliable signal visibility in diverse industrial environments. Featuring a specialized ribbed lens, it maximizes light dispersion for enhanced clarity. The robust, gray-colored housing includes an integrated mounting flange, ensuring a secure and straightforward installation process.

Technical Specifications

Light Source

LED

Suitable Applications

- Industrial control panels
- Equipment status signaling
- Machine monitoring

Lens Design

Ribbed lens for enhanced visibility

Housing Color

Gray

Mounting Type

Flange mount
