Overview

Industrial-Grade Tower Lighting

This high-intensity LED tower flood light is engineered for demanding industrial environments, construction sites, and large-area outdoor applications. Constructed with a durable 6063 aluminum shell and integrated heat sinks, it ensures superior thermal management and long-lasting reliability. The fixture utilizes advanced COB (Chip-on-Board) technology, delivering high-lumen output and consistent illumination with a specialized 60x40° beam angle for wider coverage.

Performance Metrics

Luminous Efficacy

160 Lm/W

Luminous Efficacy

Average Lifespan

50000 hours

Technical Specifications

Power Options

- 160W
- 400W

IP Rating

IP67

Input Voltage

AC90-305V, DC24V, DC48V

Beam Angle

60° x 40°

Construction

Driver Compatibility

- MW Driver
- Sosen Driver

Housing Material

6063 Aluminum
