

LED Light Bulb with Spherical Diffuser

This LED light bulb features a spherical diffuser, providing even illumination. It has a standard Edison screw base and a durable plastic housing.

Product Overview

Energy-Efficient Illumination

This LED light bulb features a spherical diffuser designed to provide even, diffused lighting for a wide range of applications. Engineered for energy efficiency and a long operational lifespan, it serves as a reliable solution for professional lighting needs. The standard Edison screw base ensures broad compatibility with existing lighting fixtures.

Technical Specifications

Suitable For

- General Illumination
- Energy-Efficient Lighting
- Standard Fixture Retrofitting

Base Type	Edison Screw
Design Features	Spherical Diffuser, White Plastic Housing, Blue Accent Band
