Overview

Professional LED Linear Wall Washer

This high-intensity LED wall washer is engineered for premium landscape and architectural illumination. Featuring a robust, waterproof design, it provides uniform lighting for building facades, bridges, stages, and plazas. The system incorporates intelligent thermal management to ensure longevity and stability while maintaining energy efficiency.

Features

Environmental Profile

- No UV emission
- No mercury risk
- Pollution-free design

Key Features

Waterproof Design, Intelligent Temperature Control, High Intensity, Fan Cooling, Energy Efficient

Technical Specifications

Cooling System

Fan cooling convection with adjustable speed settings for noise reduction

Thermal Protection

Yes

Applications

Suitable Environments

- Building facades
- Bridges
- Plazas
- Landscaping
- Billboard lighting
- Hotels
- Clubs and bars
