

LED Machine Tool Lamp

This compact tool lamp provides focused illumination for a variety of applications. It features a durable construction, multiple LEDs for enhanced brightness, and a clip for easy mounting.

Overview

Professional LED Machine Tool Lamp

The LED Machine Tool Lamp is a compact, high-intensity lighting solution engineered for precision work in industrial environments. Featuring a 9-LED configuration, this tool provides an impressive light output of over 40,000 Lux. Its durable nylon construction and IP44 waterproof rating ensure reliable performance in demanding workshop conditions.

Technical Specifications
