

LED Marine Light

This rugged LED light is designed for marine environments. It features a durable housing and high-intensity LEDs for exceptional brightness and long-lasting performance.

Overview

Rugged Marine Lighting Solution

This high-performance LED marine light is engineered for durability and reliability in challenging maritime environments. Featuring a 30W output and 2568 lumens, it provides powerful illumination suitable for deck lighting, boat lighting, and other marine applications. Built with a 6063 aluminum housing and a clear PC lens, it is designed to withstand extreme temperatures and harsh conditions.

Performance Metrics

Key Performance Metrics

30 W Power	2568 lm Raw Lumens	6 inches Length

Technical Specifications

Electrical Data

- Voltage: 9-32V
- LED Configuration: 6 x 5W CREE LEDs

Environmental Protection

IP68 Rated

Construction Materials

6063 Aluminum, Clear PC Lens, Cast Alloy

Operating Temperature

-40 to 150

Logistics

Packaging Dimensions

Item	Dimensions (cm)
Inner Carton	23.5 x 12 x 12
Outer Carton	25 x 27 x 12

Units per Carton

2 sets
