

LED Marine Light

This high-intensity LED marine light is designed for superior illumination in marine environments. The light features a durable, corrosion-resistant housing.

Product Overview

High-Performance Marine Lighting

This 20-inch LED marine light is engineered for superior illumination in demanding maritime environments. Featuring 40 high-intensity 3W CREE LEDs, it delivers a powerful output suitable for boats, yachts, and commercial vessels. Its 6063 aluminum extrusion construction and IP68 rating ensure exceptional durability, corrosion resistance, and reliable performance across a wide range of temperatures.

Technical Specifications

Power Output

120 W

Power

13200 LM

Luminous Flux

8400 LM

Raw Lumen

Voltage Range

9-32V

Beam Pattern

Combo

LED Configuration

40 x 3W CREE LEDs

Physical Dimensions

Physical Dimensions & Build

Attribute	Specification
Length	20 inches
Housing Material	6063 Aluminum Extrusion
Mounting	Cast Alloy Leg Mount

Environmental Ratings

Durability Ratings

IP68 Rated • Corrosion Resistant

Operating Temperature

-40°C to 150°C

Logistics

Packaging Information

- 2 sets per carton
- Inner carton: 60 x 12 x 12 cm
- Outer carton: 60 x 27 x 12 cm
- Weight: 4 kg per set
- Weight: 9 kg per carton
