## Product Overview

### Professional Mirror Illumination

This LED mirror light bar is designed for high-performance indoor lighting, specifically optimized for bathroom and dressing room environments. Featuring a sleek, rotatable cover design and linkable functionality, it offers versatile installation options for space-constrained areas. With a 3-year warranty and multiple international certifications, this fixture ensures reliable, long-term operation for professional applications.

## Technical Specifications

### Luminous Efficacy

**80 lm/W**  
Efficiency

### IP Rating

IP 20

### Voltage

100-240 V

### Lifespan

20000 hours

### Color Temperature

4000K - 6500K

### Operating Temperature

-20°C to +40°C

## Materials & Features

### Key Features

- Linkable design
- Rotatable cover
- Indoor application optimized

### Materials

Aluminum and Polycarbonate (AL+PC)

## Compliance & Warranty

### Warranty

3 years

### Certifications

CE, GS, CB, RoHS, REACH
