

LED Motorcycle Tail Light with Chrome Housing

This LED motorcycle tail light enhances visibility and adds style. It features a chrome housing, honeycomb-patterned reflectors, and 'E11' certification for European safety standards.

Product Overview

Enhanced Visibility and Style

This LED motorcycle tail light is engineered for both improved safety and a modern aesthetic upgrade. It features a durable chrome housing complemented by a black rubber gasket for a secure, weather-resistant seal. The advanced lens design utilizes a unique honeycomb-patterned reflector array, ensuring maximum light dispersion and brightness.
