

LED Moving Head Beam Stage Light

This moving head beam light features a 60W white LED for a strong output. It is designed with forced air convection for cooling and has a lifespan of 50,000 hours.

Overview

Professional Stage Lighting Solution

This high-output LED moving head beam light is engineered for professional entertainment and stage applications. It delivers a powerful, narrow, and intense beam capable of dynamic pan and tilt movements. With integrated color mixing and gobo projection capabilities, this fixture is an ideal choice for concerts, nightclubs, theaters, and large-scale events.
