

LED Outdoor Spot Light

This high-intensity LED spot light has a robust, weatherproof enclosure and adjustable mounting bracket. It is designed for both indoor and outdoor applications, providing focused illumination with energy-efficient LED technology.

Overview

High-Intensity Illumination

This high-intensity LED spot lighting unit is engineered for both indoor and outdoor applications, offering versatile and focused illumination. Built with a robust, weatherproof enclosure and an adjustable mounting bracket, it ensures durability and ease of installation in various environments. The integrated durable reflector maximizes light output, making it an ideal solution for architectural lighting, landscape illumination, and security requirements.

Technical Specifications

Technology Type	Energy-efficient LED
Recommended Applications	Architectural Lighting, Landscape Illumination, Security Lighting, Indoor, Outdoor

Design & Build

Construction Features

- Weatherproof enclosure
- Adjustable mounting bracket
- Durable reflector

Durability

Weatherproof • High-Intensity
