Overview

High-Efficiency LED Panel Lighting

These professional-grade LED panel lights are designed to provide uniform, glare-free illumination for a variety of indoor commercial and residential environments. With a slim profile, they ensure easy installation into standard ceiling grids while offering significant energy efficiency. The series features multiple size and power configurations to suit diverse architectural needs, delivering consistent light output and excellent color rendering for enhanced visual comfort.

Technical Specifications

Model Specifications

Model	Dimensions	Power	Luminous Flux
PL-3030-20W	300*300mm	20	2000
PL-3060-30W	300*600mm	30	3000
PL-30120-40W	300*1200mm	40	4000
PL-6060-40W	600*600mm	40	4000
PL-60120-70W	600*1200mm	70	7000

Electrical Properties

- Voltage: 220-240V / 100-264V
- Power Factor: e0.5 / 0.9
- Color Temperature (CCT): 2700-6500K
- Lumen Tolerance: ±10%
