

LED Paver Lights

Durable LED paver lights are integrated into stone paving blocks for outdoor lighting. Designed to be flush with the paver surface, they provide subtle illumination for walkways, driveways, and patios.

Product Overview

Durable Outdoor Illumination

These LED paver lights are designed to be flush with outdoor stone paving surfaces, offering a seamless integration for walkways, driveways, and patios. Constructed from high-quality materials, they provide weather-resistant and long-lasting performance in various outdoor environments. The energy-efficient LEDs offer ambient illumination that enhances both the aesthetic appeal and safety of exterior architectural spaces.

Product Features

Installation Style	Flush-mount integration
Primary Applications	Walkways, Driveways, Patios, Architectural Accents

Performance & Quality

Material Benefits

- High-quality stone construction
- Weather-resistant design
- Durable against wear
- Energy-efficient LED technology

Lighting Function

Ambient Lighting • Safety Lighting
