Product Overview

High-Performance LED Roadway Luminaire

This LED roadway luminaire is engineered for reliable, long-term performance in demanding outdoor environments. Featuring a robust pressure die-cast aluminum construction with a durable polyester powder coat finish, it offers excellent weather resistance and heat dissipation. Its versatile design, including a non-slip open bracket for easy maintenance and a power-off protection socket, makes it an ideal choice for municipalities and commercial developers seeking efficient, safe, and low-maintenance lighting solutions.

Technical Specifications

Impact Rating

IK08

Housing Material

Pressure die-cast aluminum

Finish

Polyester powder coat paint

Key Features

Maintenance

- Non-slip open bracket for easy access
- Power-off protection socket for safety

Cooling Design

Arc shape cooling guide for effective heat dissipation and dust removal

Optical System

Combined optical lens supporting a wide variety of road lighting requirements

Applications

Suitable Environments

Public roads, Footpaths, Cycleways, Carparks, Marinas, Industrial areas, Civic areas
