

LED Rope Light

This flexible rope light features evenly spaced LEDs encased in a durable, weather-resistant PVC jacket. Designed for both indoor and outdoor use, it provides ambient lighting for architectural accents, landscape lighting, and decorative displays.

Product Overview

Versatile Lighting Solution

The Norma Rope Light Series is a highly flexible lighting solution engineered for diverse applications. Featuring evenly spaced LEDs protected by a durable, weather-resistant PVC jacket, this product delivers consistent brightness and superior energy efficiency. It is perfectly suited for both indoor and outdoor environments, making it ideal for architectural accents, landscape illumination, and decorative displays.
