

LED Rotating Warning Light

This LED rotating warning light provides a 360-degree beam for high visibility. It is designed for use in traffic control, emergency response, and hazard awareness.

Overview

Our selection includes various styles of rotating and flashing lights designed for high visibility in hazardous environments.

High-Visibility LED Warning Solution

This LED Rotating Warning Light is designed for professional use in automotive and industrial environments requiring reliable hazard signaling. Featuring 80 high-intensity 5730 LED chips and an IP65 waterproof rating, it ensures exceptional visibility and durability in challenging weather conditions. The versatile magnetic mounting system with a cigarette lighter plug allows for rapid deployment on emergency vehicles, construction sites, or roadside assistance units.

Technical Performance

Performance Highlights	
12 V Min Voltage	24 V Max Voltage
80 Qty LED Chips	
Ingress Protection IP65	
Operating Voltage	DC 12/24V
Light Source Type	LED (5730 Chips)

Physical Construction

A comprehensive range of signaling solutions featuring magnetic mounts and multiple color configurations.

Materials

- PC (Polycarbonate) Lens
- ABS Base

Available Colors

Amber, Blue, Orange, Red

Installation & Function

Installation Method

Magnet with cigarette lighter plug

Functionality

Three function flashing

Commercial Terms

Trade & Payment

Term Type	Details
Payment Terms	30% Deposit by T/T, 70% before shipment
Trade Terms	FOB Shenzhen
Delivery Time	Within 30 days after deposit

Warranty

12 Months

Minimum Order Quantity

200 pcs

Standard Packaging

20 PCS per Carton
