

# LED Snap Frame Light Box

This LED light box features a four-sided opening and an ultra-thin design. It is suitable for exhibition shows, menu boards, and franchise stores.

## Overview

### Professional LED Display Solution

The LED Snap Frame Light Box is a versatile, ultra-slim display solution designed for high-impact commercial advertising. Available in both single-sided wall-mounted and double-sided configurations, these light boxes utilize energy-efficient LED backlighting to ensure uniform, eye-catching illumination. With a sleek 30mm frame width and customizable size options, they are ideal for enhancing visibility in retail stores, restaurants, and exhibition environments.
