Product Overview

Sustainable Outdoor Illumination

This high-efficiency solar street light is designed to provide reliable illumination for roadways, pathways, and public areas. By utilizing a high-capacity solar panel and integrated battery system, it offers a sustainable and energy-saving alternative to traditional lighting. The robust construction and advanced LED technology ensure bright, long-lasting performance in diverse outdoor environments.

Technical Specifications

Ingress Protection

IP65

Solar Panel Power

40 W

Solar Panel Voltage

6 V

Battery Capacity

20 Ah

Performance

LED Efficiency

60 LM

Luminous Flux per LED

Operation Times

5 H

Charging Time

16 H

Usage Time

LED Count

105

Physical Dimensions

Product Dimensions

Component	Size (mm)
Lamp	525 x 210 x 40
Panel	500 x 350 x 17
